

YASHASWI SRIVASTAVA

Full Stack Software Developer | yashaswi26022006@gmail.com | [LinkedIn](#) | +91 8957582028 | Mumbai, Maharashtra, India

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2.5+ years of experience designing and scaling backend systems using C#, ASP.NET MVC/Web API, .NET Core, SQL, and Azure. Proven expertise in building high-performance APIs, microservices, and data-intensive workflows supporting 150K+ daily transactions. Strong background in system optimization, CI/CD automation, and database performance tuning. Hands-on experience integrating Generative AI (LLMs, RAG, prompt engineering) into enterprise workflows. Adept at end-to-end ownership—from requirement analysis and design to deployment and production support.

TECHNICAL SKILLS

- Backend & APIs: C#, ASP.NET MVC, ASP.NET Web API, .NET Core, Java(Basic), Node.js, REST APIs
- Frontend: JavaScript, ReactJS, AngularJS, HTML5, CSS3, Bootstrap, AJAX
- Databases: MySQL, SQL Server, Query Optimization, Stored Procedures
- AI / GenAI: LLM Integration, Prompt Engineering, RAG, Oracle Generative AI (Certified), Python (Data Basics)
- Cloud & DevOps: Microsoft Azure, Azure DevOps, CI/CD Pipelines, Git
- Architecture & Concepts: Microservices, MVC, OOP, SOLID Principles, API Security, System Design

WORK EXPERIENCE

Jio Platforms Ltd., Navi Mumbai, India **November 2023 – Present**

Full Stack Software Developer

- Designed and developed scalable backend APIs for Jio Home Delivery platform supporting 150,000+ daily deliveries.
- Refactored critical execution paths and optimized API workflows, reducing latency by ~30% and improving system responsiveness.
- Re-architected reporting modules, cutting report generation time from 12s to 3.5s (~70% improvement).
- Built role-based access control for admin, store, and rider operations across delivery workflows.
- Implemented Azure DevOps CI/CD pipelines, reducing deployment failures by ~40%.
- Optimized SQL queries, indexes, and stored procedures, improving database performance by ~50%.
- Integrated AI-driven automation components into backend workflows for operational efficiency.
- Key Skills:** ASP.NET MVC/Web API, C#, MySQL, Azure, CI/CD, Microservices, API Optimization, AI implementation

Nagarro Private Software Ltd, Gurugram, India **March 2023 – October 2023**

Java Developer

- Developed and deployed 5+ Java Spring Boot microservices supporting B2B and B2C platforms.
- Built cloud-hosted backend services with AngularJS frontend integrations.
- Optimized service deployments and infrastructure usage, achieving ~20% cost savings.
- Key Skills:** Java, Spring Boot, AngularJS, NodeJS, React JS

Ankur Web Technology **July 2022 – September 2022**

Software Developer Intern

- Developed and optimized an e-commerce platform using PHP, JavaScript, AJAX, and MySQL.
- Improved mobile responsiveness and cross-browser compatibility, enhancing user experience.

GENAI / DATA SCIENCE EXPERIENCE

- Hands-on experience with Oracle Generative AI including LLM usage, prompt engineering, RAG pipelines, and agent creation.
- Designed structured prompts for workflow automation and domain-specific outputs.
- Integrated LLM-based automation with backend systems and orchestration tools for API-driven workflows.

EDUCATION **August 2019 – June 2023**

Bachelor of Technology (B.Tech)- *Computer Science and Engineering*

United College of Engineering and Research

Prayagraj, Uttar Pradesh

- CGPA: 8.83

ACADEMIC PROJECTS

Jio Home Delivery Platform

Tech: ASP.NET, C#, JavaScript, MySQL, Azure

- Built modules for SIM & Fiber customer delivery workflow.
- Designed service layer + optimized queries → 50% faster queries.
- Role-based access modules; integrated automated job schedulers.

Inventory Store and Management (LIVE)

Tech: PHP, MySQL, AJAX, JS

- Centralized inventory platform with real-time tracking + request management.
- Reduced manual paperwork by 80%.

ACHIEVEMENTS

- Delivered enhancements improving delivery success metrics across major Jio product regions.
- Consistently recognized for solving complex operational defects on short timelines.
